

# Innovation Lab

## THE AMATECH INNOVATION LABs

- The physical HQ of AMATECH, the Amazonian base for our Research, Development & Innovation team.
- A home from home for our partner researchers, innovators and entrepreneurs from around the world.
- A virtual collaboration platform that connects all of our partners together in “AmatechMeta Labs” –part of Metamazonia.
- The place to engage with subject matter experts, practitioners and world leading researchers across a range of technologies, including Big Data, sensor and drone technologies, bio-mimicry robotics, satellite & Remote Sensing Imagery, 3D modelling & data visualization, image recognition, Environmental DNA Analysis etc.

## AMATECH MANICORÉ, facilities include

- Air conditioned accommodation
- Meals, including for field trips
- Office space, with free internet access
- Transport to the Reserve
- Field work accommodation, within the local communities
- Access to translators and local guides
- Arrangement of transport and logistics between Manicoré and Manaus, the state capital of Amazonas –and from Recife, for international connections.
