Leveraging the Data Hub and Innovation Lab, the **AMATECH ENTERPRISE ACCELERATOR** is a start up accelerator and venture studio, providing a suite of hands-on support for our incubating and partner companies.

Getting started?

Working with founding teams, our **VENTURE STUDIO** is focused on the translation of an idea, R&D output or uncommercialised Intellectual Property into a viable business opportunity.

Looking to grow?

For existing businesses looking to scale, the **START-UP ACCELERATOR** is a combination of 1:1 expert guidance and support covering all key aspects of growing a business, access to AMATECH's global corporate partner ecosystem and a network that will provide the foundation for the sustainable growth of your business.

INVESTMENT, from pre-seed to Series B, is facilitated through our network of AMA Group –aligned investors, from Angels, though Family Offices to Funds and Corporate Venture Offices.

Enterprise Accelerator

STEAMhouse, based in Birmingham, the UK's second city, is a collective; a living, breathing community of business experts, innovators, disrupters, thought leaders, design practitioners, academics, SMEs, large organisations, and corporate firms, who join together to drive business growth and overcome commercial and societal challenges through collaborative innovation.

For AMATECH partners based in the UK, companies will have access to a wide range of business support services including coworking and meeting spaces, state-of-the-art production space and prototyping facilities, a digital hub connecting users with future technologies such as 5G testbeds and trials, AR (Augmented Reality) and VR (Virtual Reality) –with a dedicated Metamazonia environment established during 2023, connecting all of our partners around the world, in real-time.
